Ref: Energy Audit at Technical Seal Co. Ltd., Subsidiary of Zamil ChemPlast

I am happy to state that M/s. Qeraton Arabia has successfully conducted an Energy Audit of the manufacturing facility of Technical Seal Co. Ltd. at Dammam during January-February, 2015. This audit has brought out vital inputs for our Operational Excellence drives and showed us potential areas of energy savings to the tune of over 20% of our annual energy cost.

On behalf of the company, I acknowledge the quality work done by the Qeraton Arabia team with true commitment to the assignment.

Wishing them all success in all their value adding services being made readily available in the Kingdom of Saudi Arabia, I remain.

Engr. Mathew V. Joseph
Plant Manager

Dammam
